FAST

*R8*

Gaining time

## FOCUSED REPEATING

---

- In-line repeating: Rapid succession of shots in mounted position
- Ergonomically perfect position of bolt handle
- Rifle and Eye remain focused on the target
- Gains time to aim precisely and ensure a perfect shot

## BLIND MAGAZINE EXCHANGE

- Magazine buttons are positioned above the trigger and can be operated "blindly"
- Pushing both buttons at the same time, the magazine releases directly into the shooter's hand
- A second loaded magazine can be inserted within a split second
- Easy loading, by pushing the cartridges into the magazine
- Magazine can be also loaded from above when installed in the rifle
- Increased Magazine capacity: Mini 5 + 1, Standard: 4 + 1, Magnum 3 + 1

## ILLUMINATION CONTROL

---

- Optionally available in combination with ZEISS iC rifle scopes
- Connects the control of the reticle illumination to the operation of the rifle
- Illuminated dot is automatically activated, when cocking the R8

ACCURATE

*R8*

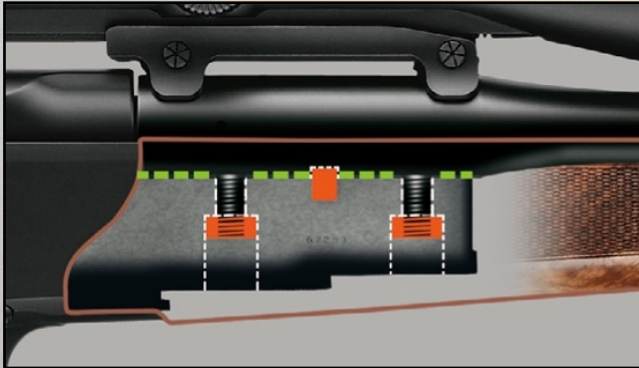

Perfect Shot

## BLASER PRECISION TRIGGER

---

- Insures the perfect shot, being the Connection between rifle and shooter
- Transfers the thought impulse within a split second into igniting mechanics
- Crisp and clean, breaking like Glass at 750g / 1,5lbs or 1134g / 2,5 lbs
- Lightning fast lock time

## SUPERIOR BARREL BEDDING

- Hammer forged barrels and chambers for perfect concentricity of chamber and bore results in unmatched strength and accuracy
- Barrel is form-fitted perfectly onto the solid R8 action, supported by the recoil-lug
- Point of impact unaffected by stock and forearm (shrinking / swelling)
- 100% Return-to-zero Accuracy when removing the barrel

## BLASER SADDLE MOUNT

- Integral Connection of Rifle and Scope
- Tension-free mounting due to one-piece mounting base
- Free floating barrel
- 100% thermostable
- 100% Return-to-zero Accuracy when removing the scope

## BLASER RADIAL LOCKING SYSTEM

- Extremely strong, concentric lockup directly in the barrel
- Support bushing for positive locking of the collet spring
- No rotational movement
- The deciding factor for unsurpassed accuracy

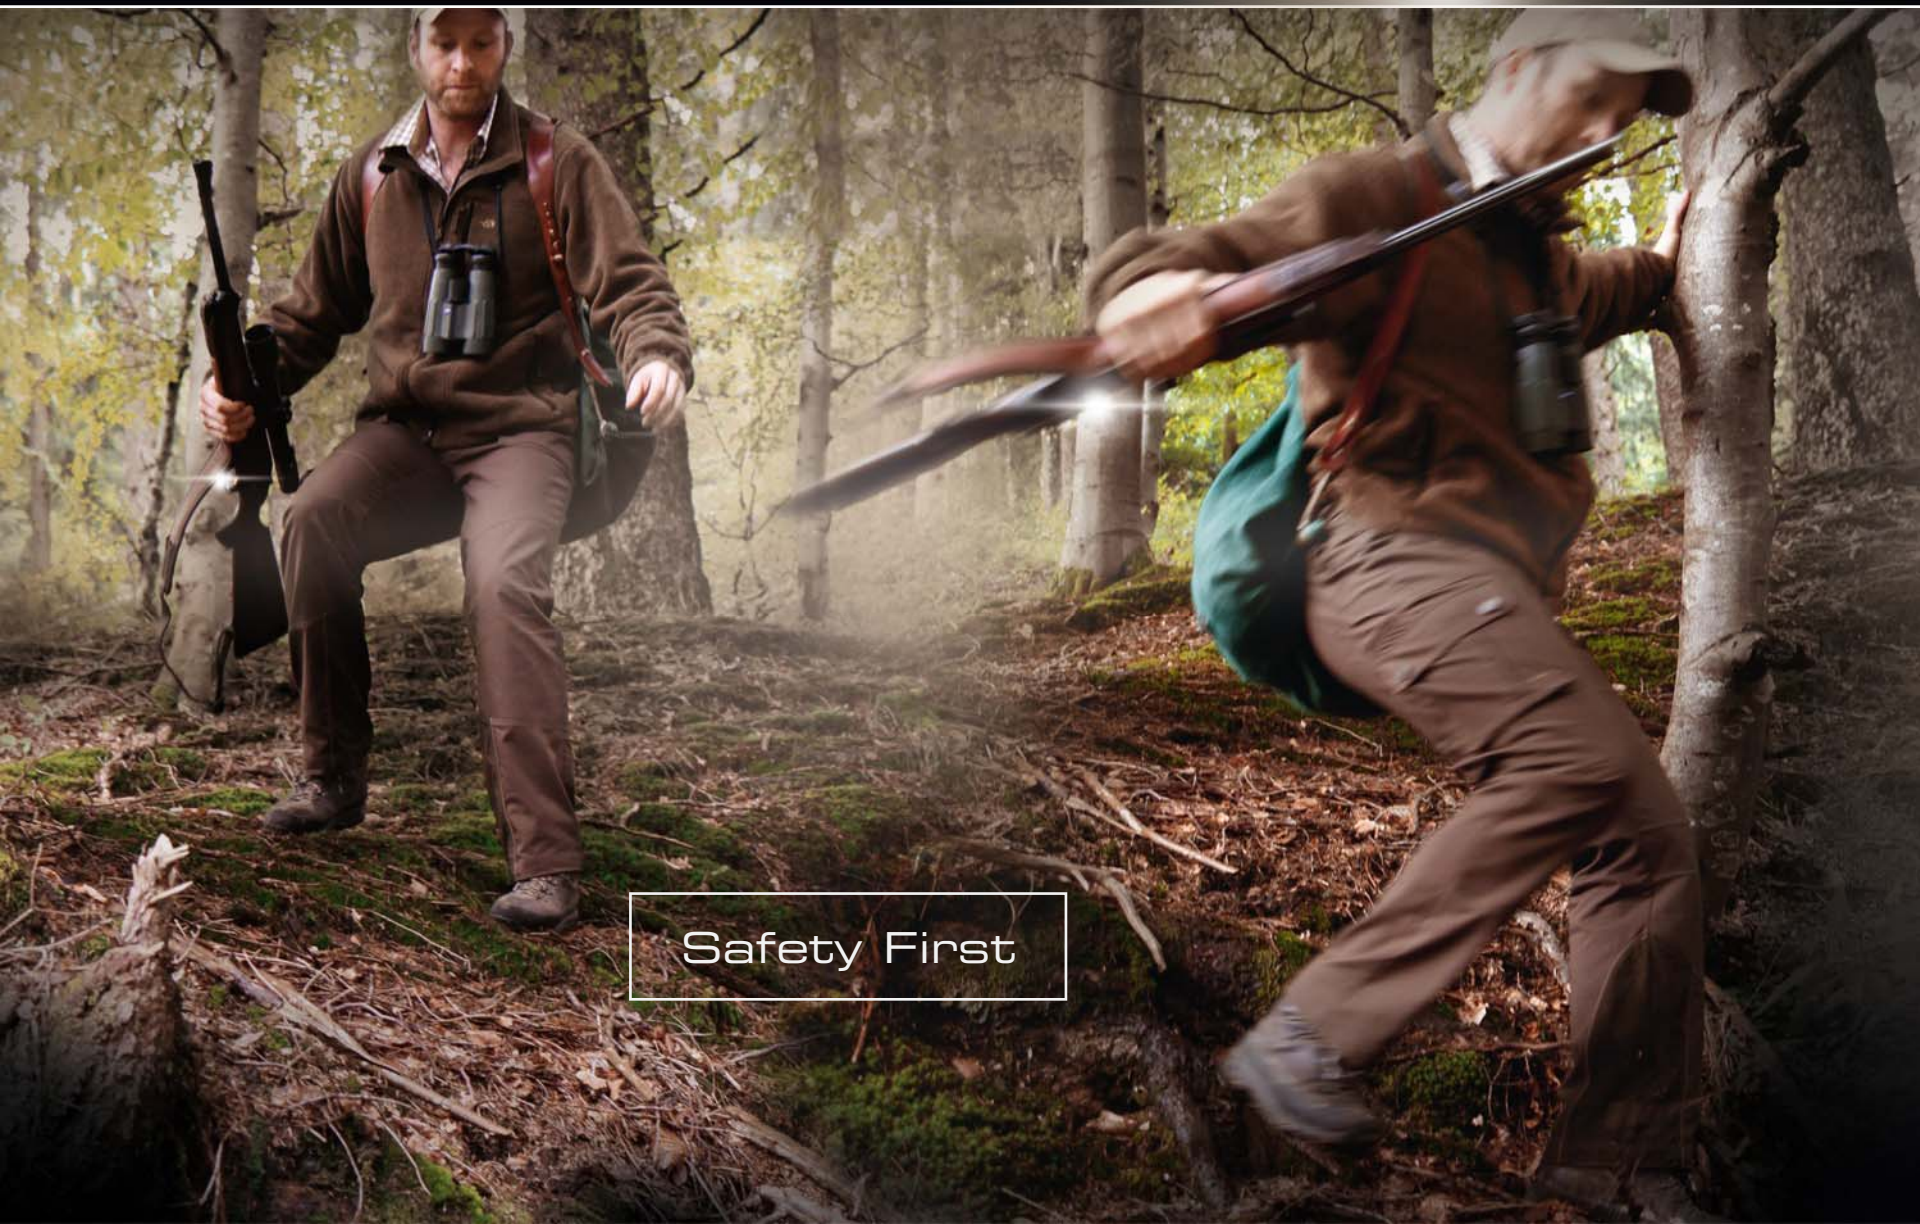

## SUCCESS FACTOR: THE STOCK

---

- Parallel comb
- Recoil is directed into the shoulder
- Increased muzzle stability
- Felt recoil is substantially less
- Steeper angle of pistol grip for optimised trigger control
- Palm swell and distinct cast-off of grip result in ergonomically perfect position of the shooting hand with no tension on the wrist.

SAFE

R8

Safety First

## MANUAL COCKING SYSTEM

- Uncocked Hammer provides utmost safety
- Hammer is cocked directly before firing
- No conventional safety offers the safety of an uncocked hammer
- Visual indicator – red square shows the cocked position

## MANUAL COCKING SYSTEM

---

- To safely open the bolt, simply move the cocking lever forward until you meet the first resistance (about 3 mm) to unlock the bolt handle
- This slight movement will not cock the rifle and you can load and unload the rifle safely

## AUTOMATIC DECOCKING

- The hammer decocks, when magazine is removed from the rifle
- Important safety factor, if there is still a cartridge in the chamber

## SAFE AGAINST USER ERROR AND UNAUTHORIZED USE

---

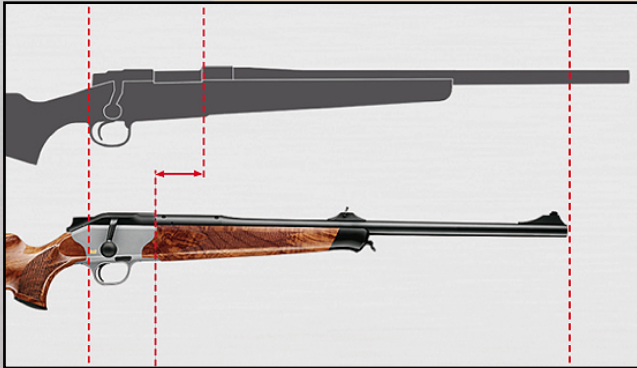

- Hammer cannot engage in the cocked (off-safe) position, when Magazine with integrated Trigger Unit is not installed in the rifle

HUNTABLE

R8

Follow your intuition

## SHORT AND HUNTABLE

- Magazine is positioned above trigger
- 9 cm (3½") shorter than conventional bolt action rifles
- A decisive advantage , when carrying the rifle - not only in difficult terrain

## PERFECTLY BALANCED

---

- Perfect combination of overall length, weight and balance
- Intuitive handling:  
„Weight between the hands“
- Comfortable shooting position

## SAFELY STORED; READY IN A SPLIT SECOND

- Disassembled and assembled in a split second
- No influence on point of impact
- Easy to transport while traveling

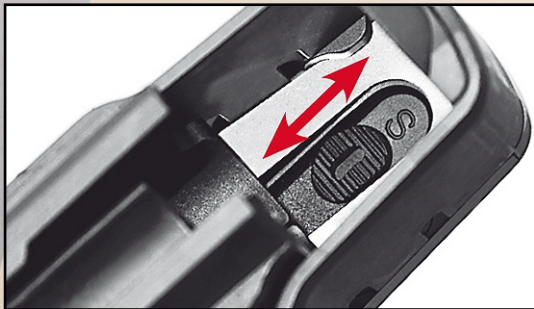

RELIABLE

R8

Braving the elements

A man in camouflage gear and a cap, carrying a large backpack, looking through binoculars in a snowy mountain landscape. The scene is set in a high-altitude, snowy environment with mountains in the background. The man is wearing a brown cap, a camouflage jacket, and a large brown backpack. He is holding binoculars to his eyes and looking towards the right. The background shows a vast, snowy mountain range under a clear sky.

## LOCKED MAGAZINE

---

- Reliable Double Button Release
- Unique magazine lock allows the system to be locked into the receiver

## PROTECTED

- All metal parts of the R8 are protected against corrosion
- Closed Design prevents dirt & dust from entering the rifle
- Every Magazine comes with a Magazine Cover (1)
- Every Rifle comes with a Receiver Insert (2) that seals the Magazine-well

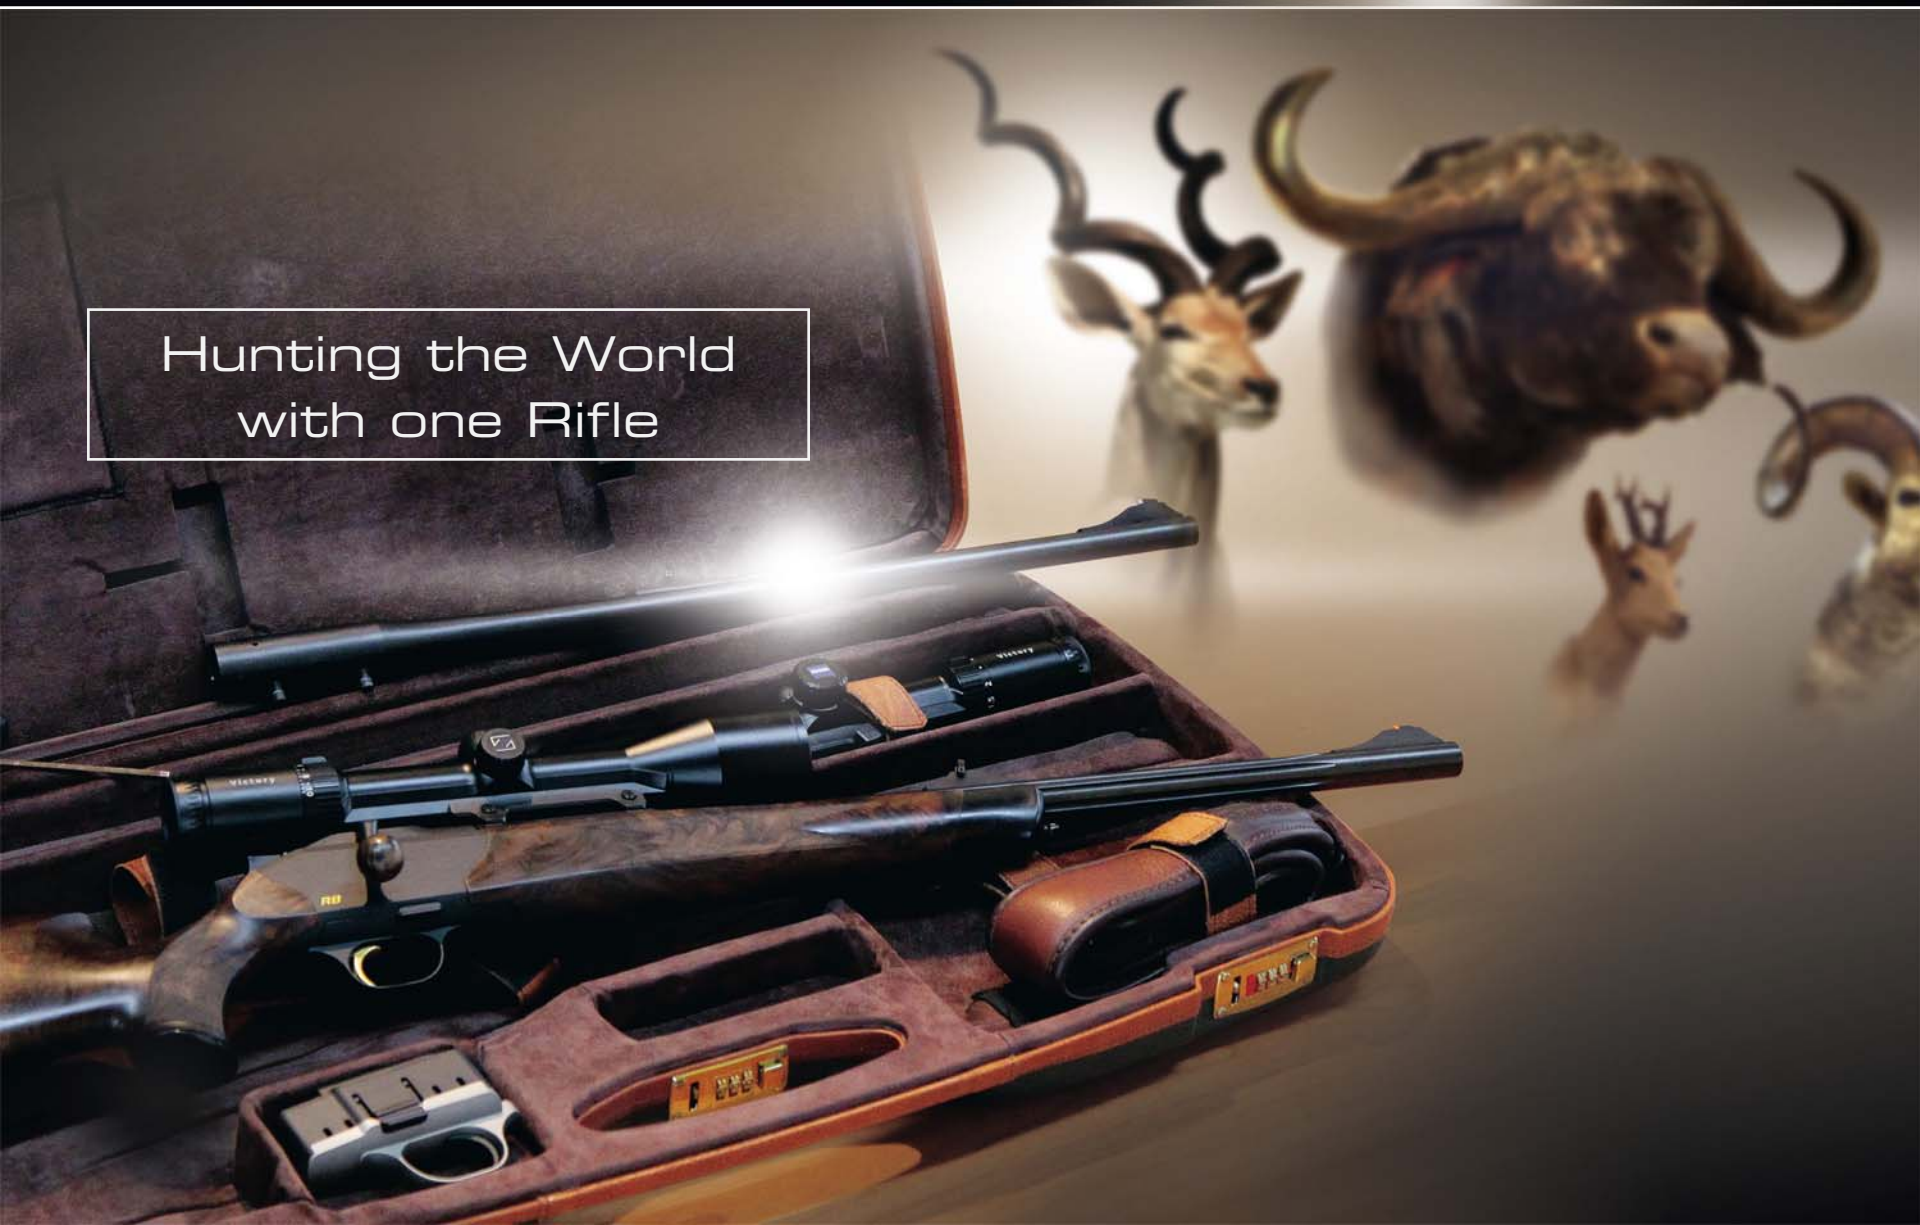

## DESMODROMIC TRIGGER SYSTEM

- R8 Trigger system works on a cam-activated system, ensuring 100% reliability, independent of springs.  
Provides utmost reliability even under icy or dusty conditions
- Firing pin is released mechanically

## GENERAL SPECIFICATIONS

- Overall length with 58 cm (23") barrel: 102 cm (40")
- Length of Pull: 37 cm (14 ½")
- Total weight:
  - Approx. 2.9 kg / 6.4 lbs with Standard barrel 58 cm (23")
  - Approx. 3.2 kg / 7 lbs with Semi Weight barrel 58 cm (23")
  - Approx. 4.4 kg / 9.7 lbs in Safari Version with Safari barrel 60 cm (23 ½") and Kickstop

## STANDARD BARREL EQUIPMENT

Barrel diameter (muzzle):

- R8 Jaeger, R8 Luxus, 17 mm (5/8")
- R8 Attaché, R8 Baronesse: 17 mm (5/8") , fluted
- R8 Safari PH, R8 Safari Luxus,  
(.300 Blaser Mag., .300 Win. Mag.): 19 mm (3/4")
- R8 Safari PH, R8 Safari Luxus,  
(.375 Blaser Mag., .375 H&H Mag., .416 Rem. Mag.):  
22 mm (7/8")

## EXCHANGING CALIBERS

- Different barrel versions can be inserted in every R8
- When changing from one caliber group to the other during a barrel exchange, the bolt head has to be changed as well, so that it corresponds to the caliber group
- The bolt head can be exchanged quickly and easily without tools
- Every R8 barrel comes with the suitable magazine insert

## Variability

- Every R8 can subsequently be converted into the R8 Semi Weight or R8 Safari
- Besides interchanging the barrel, an additional forearm adapted to the correct barrel contour is required
- Every R8 can be retrofitted with a different stock-/forearm-/receiver unit

## OPTIONAL EXTRAS FOR ALL R8 MODELS

- Wooden ball for the bolt handle
- Gold-colored bolt head
- Gold-colored trigger
- Pistol grip cap
- On request engraved with personal monogram
- Framed by arabesques or leaves
- With animal motive or individual motives
